SUMMARY

I am a passionate learner of new technologies which encourage me to create different projects and increase my creativity and also keep me motivated to grow and excel, with a strong ambition to become a successful engineer.

ACADEMIC DETAILS

Year	Degree/Exam	Institute	GPA/Marks(%)
Sep, 2022 - Jun, 2026	B.Tech in Computer Science	Graphic Era Hill University Dehradun	8.05/10
2022	12 th , C.B.S.E	Nirmala Convent Sr. Sec. School	84.60 %
2020	10 th , C.B.S.E	Nirmala Convent Sr. Sec. School	90.20 %

PROJECTS

- **AI Powered Zero Trust Access Control** (AI/ML models , APIs, PostgreSQL) *Apr - Jun, 2025*
Designed a Zero Trust based authentication system using Flask, PostgreSQL, and Scikit-learn anomaly detection models (Isolation Forest, Random Forest). Implemented JWT-secured sessions, adaptive access policies, and an admin dashboard (React + Chart.js) for real-time monitoring.
- **Socialgram- A full stack media sharing platform** (Python, Flask, Sql, HTML, CSS) *Jan, 2025*
Developed a secure Flask-based web application with user authentication, media uploads, and interactive social features. Built a robust backend using SQLAlchemy ORM with SQLite, integrated an admin panel via Flask-Admin , and strengthened security with CSRF protection, CSP headers, and safe file handling. Designed a responsive frontend with dynamic content and a modular Flask Blueprint architecture.
- **Music Genre Classification** (Python, Scikit-learn, Numpy) *Nov, 2024*
Built a model which classify music tracks into its genres such as rock, jazz, classical, hip-hop, pop, using the K-Nearest Neighbor (KNN) algorithm. The project involved collecting music data, preprocessing features like tempo and rhythm, and applying KNN for classification.
- **Hospital Management System** (Java, JDBC, MySql) *July, 2024*
Developed a console based Hospital Management System using Java and JDBC(Java Database Connectivity) for efficient management of hospital operations.The system allow users to book appointments,view and update patient records and access doctor information. A MySQL database was used to store and manage data, with JDBC ensuring smooth communication between the Java program and the database.

SKILLS

- **Programming Languages:** C, C++, Python, Java
- **Web Technologies:** HTML, CSS, React.js, Node.js
- **Databases:** MySql
- **Tools and Platforms:** Git, GitHub, VS Code, Linx
- **SOFT Skills:** Teamwork and Collaboration, Time management and organization, Positive attitude

CERTIFICATIONS

- **Salesforce Developer Virtual Internship-SmartBridge,Salesforce, AICTE(May-July2025)-** Completed an 8-week internship covering Apex, Flows, LWC, data modeling automation.
- **Introduction to Front-End Development(March, 2025)-** covered essential core HTML, CSS, and javascript concepts.
- **NPTEL Online Certification Course- Developing soft skills and Personality(Nov, 2024) , Programming In Python (Dec, 2023).**
